

# Endpoint Detection & Response (EDR)

Protect Your Endpoints with Katalyst's Managed EDR Solutions

## The Growing Security Challenge

Cyber threats are evolving at an alarming rate, with sophisticated attacks like ransomware and zero-day exploits posing serious risks to businesses. Many organizations struggle with:

- **Lack of real-time threat detection** – Unable to identify and respond to threats before they cause damage.
- **Limited visibility into endpoint activity** – Gaps in security posture leave vulnerabilities exposed.
- **Alert fatigue and false positives** – Overwhelming alerts with no clear path to resolution.
- **Resource constraints** – IT teams lack the time or expertise to manage endpoint security effectively.

### How Katalyst Helps:

Katalyst offers a comprehensive, vendor-agnostic Endpoint Detection and Response (EDR) solution, providing:

#### Real-time threat detection

powered by AI and Machine Learning to stop threats before they spread.

#### Automated incident response

to contain and neutralize attacks instantly.

#### Comprehensive endpoint visibility

to monitor all activities and detect suspicious behavior.

#### Forensic Investigations

to analyze incidents and prevent future threats.

#### Managed Detection and Response (MDR)

through Foresite, ensuring 24/7 expert monitoring.

#### Enhanced security posture

by proactively addressing vulnerabilities and strengthening overall defenses.

### Industry Leading Partnerships:

“It feels like we bought peace of mind. They worry about the things we need to worry about, identify the things we need to identify, fix the things we need to fix and get it all done before we need to think about it. .”

Steven Yates, Chief Innovation Officer, MB HAYNES

# Explore Katalyst's Services Catalog:

Here's a quick look at the extensive list of services we provide to our clients:

## On-Demand Services

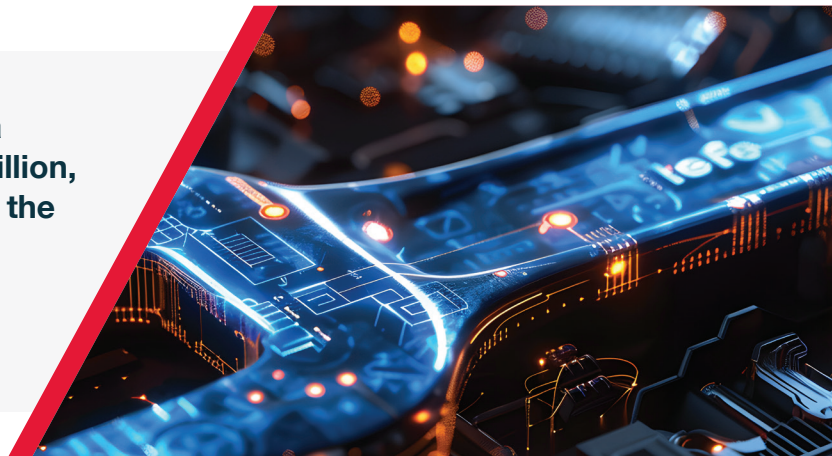

- SDWAN / Routing
- Switching
- Wireless
- Firewalls
- Network Access Control
- Segmentation
- Data Center Networking
- Secure Access Service Edge (SASE)
- Endpoint Security
- Email Security
- Identity & Identity Protection
- Hybrid Cloud
- Risk Management
- Security Awareness Training
- Backup & Data Protection
- Cloud Calling
- Collaboration
- Contact Center
- Endpoint Management
- Workload Security
- Security Analytics
- Security Analysis and Roadmap
- Network Analysis and Roadmap
- Cloud Analysis and Roadmap
- Vulnerability Assessment
- Automation / AI
- Email Migrations
- Incident Response

## On-Going Services

- Managed Infrastructure Services
- Managed SIEM / SOC Services
- Managed Detection and Response
- Managed Compliance Services
- Managed Help Desk Services
- Managed Microsoft Services
- Managed Data Protection Services
- Private / Public Cloud Infrastructure
- Modern Workplace Solutions
- Advisory Services

**\$4.88  
million**

In 2024, the average cost of a data breach reached \$4.88 million, marking a 10% increase over the previous year

## About Katalyst

For over 18 years, Katalyst has helped organizations create and execute their technology vision to go further, faster. From addressing complex challenges to embracing exciting opportunities, clients trust our team's experience and expertise across cybersecurity, modern infrastructure, and cloud computing.

Take your next step forward to achieve reliable IT operations and cost efficiency through our comprehensive suite of on demand and ongoing services. Trust we will deliver on the Katalyst Guarantee: if you are not 100% satisfied with our services, we will either make it right or refund you for the last 30 days of service.

Protect your business before the next attack strikes. Schedule a consultation with a Katalyst security expert today!
