

# Identity & Identity Protection

Stop Unauthorized Access & Strengthen Your Identity Security

## Solution Overview

In today's digital landscape, securing identities and managing access are critical components of a strong cybersecurity strategy. Katalyst delivers comprehensive Identity & Access Management (IAM) and Identity Protection solutions designed to protect organizations from unauthorized access, credential theft, and compliance risks. Our services ensure that only the right individuals have access to the right resources at the right time—minimizing security vulnerabilities and improving operational efficiency.

Organizations today face increasing challenges in managing user identities and securing access to critical resources. If any of these issues sound familiar, it's time to rethink your approach to Identity & Access Management (IAM):

- **Unauthorized Access & Data Breaches** – Concerned about compromised credentials leading to security incidents?
- **Regulatory Compliance Pressures** – Struggling to meet stringent requirements like GDPR, HIPAA, or SOC2?
- **Onboarding & Offboarding Issues** – Difficulty managing access as employees join or leave?
- **Insider Threats & Credential-Based Attacks** – Lacking strong security measures to prevent internal risks?
- **Multi-Platform Identity Management** – Using multiple systems without a centralized IAM strategy?

## How Katalyst Solves These Challenges:

Katalyst provides tailored Identity & Access Management (IAM) and Identity Protection solutions to strengthen security and simplify access management. Our approach includes:

### Comprehensive Identity Management

Secure and streamline identity governance with a centralized IAM strategy, ensuring efficient access control across cloud and hybrid environments.

### Enhanced Authentication & Security

Protect against unauthorized access with Multi-Factor Authentication (MFA) and Single Sign-On (SSO), ensuring strong identity protection across all platforms, including legacy systems.

### Ongoing Compliance & Governance

Maintain regulatory compliance and keep identity security up to date with managed IAM services, reducing risk and operational complexity.

“Cybersecurity is a race, a marathon you have to keep running. [Working with Katalyst] is like having a team that's going to help you win this marathon. Instead of ‘I'm going to do my best’, we now have a plan and the right team to help us monitor it.”

# Explore Katalyst's Services Catalog:

Here's a quick look at the extensive list of services we provide to our clients:

## On-Demand Services

- SDWAN / Routing
- Switching
- Wireless
- Firewalls
- Network Access Control
- Segmentation
- Data Center Networking
- Secure Access Service Edge (SASE)
- Endpoint Security
- Email Security
- Identity & Identity Protection
- Hybrid Cloud
- Risk Management
- Security Awareness Training
- Backup & Data Protection
- Cloud Calling
- Collaboration
- Contact Center
- Endpoint Management
- Workload Security
- Security Analytics
- Security Analysis and Roadmap
- Network Analysis and Roadmap
- Cloud Analysis and Roadmap
- Vulnerability Assessment
- Automation / AI
- Email Migrations
- Incident Response

## On-Going Services

- Managed Infrastructure Services
- Managed SIEM / SOC Services
- Managed Detection and Response
- Managed Compliance Services
- Managed Help Desk Services
- Managed Microsoft Services
- Managed Data Protection Services
- Private / Public Cloud Infrastructure
- Modern Workplace Solutions
- Advisory Services

**81%** of hacking-related breaches leverage stolen or weak passwords

## About Katalyst

For over 18 years, Katalyst has helped organizations create and execute their technology vision to go further, faster. From addressing complex challenges to embracing exciting opportunities, clients trust our team's experience and expertise across cybersecurity, modern infrastructure, and cloud computing.

Take your next step forward to achieve reliable IT operations and cost efficiency through our comprehensive suite of on demand and ongoing services. Trust we will deliver on the Katalyst Guarantee: if you are not 100% satisfied with our services, we will either make it right or refund you for the last 30 days of service.

Are you ready to enhance security, streamline access, and improve compliance?
