

# Microsoft 365 with Katalyst Managed Services

Calendar  
Schedule and share...

Streamline operations, enhance security, and maximize value

## Are You Maximizing Your Microsoft 365 Investment?

Many organizations invest in Microsoft 365 expecting seamless collaboration, security, and employee productivity, but without proper management, these benefits can be difficult to realize. IT teams are stretched thin, struggling to keep up with routine administration, security alerts, and compliance requirements. Many businesses underutilize key features, leaving productivity gains on the table, while growing cyber threats and data loss risks add to the burden. Without the right expertise and proactive management, companies may find themselves reacting to problems rather than strategically optimizing their Microsoft 365 environment.

Organizations rely on Microsoft 365 for business-critical operations, but managing it effectively presents challenges:

- **Overburdened IT Teams:** Routine administration and security concerns consume valuable time.
- **Underutilized Features:** Businesses fail to maximize the value of their M365 investment.
- **Security Risks:** Cyber threats, account takeovers, and compliance risks are increasing.
- **Data Loss Concerns:** Accidental deletions, ransomware attacks, and retention gaps threaten business continuity.

## How Katalyst Can Help

Katalyst's Managed Microsoft 365 Services extend your IT team's capabilities, ensuring security, efficiency, and strategic value.

### Tenant Management

Reduce costs, automate routine tasks, and enhance security response times by offloading day-to-day Microsoft 365 administration.

### Advisory Services

Increase feature adoption, reduce security risks, and optimize licensing costs with expert guidance on M365 optimization and compliance.

### Security Event Response Services

Detect and remediate security risks in real-time, mitigate downtime, and strengthen cybersecurity posture with SOC-backed monitoring.

### O365 Backup Services

Ensure business continuity with rapid file recovery, secure off-Microsoft backups, and long-term data retention for compliance.

Katalyst continues to go above and beyond in every aspect of our partnership. From our excellent account and client success managers, our managed services engineers, and the consulting engineers that have helped us on our projects this past year, we have been sincerely impressed with the expertise and professionalism that Katalyst provides.
