

Network Analysis & Roadmap (NAR)

Gain Clarity, Security, and Performance

The Details

In today's fast-paced digital world, a reliable and secure network is crucial for business success. The Katalyst Network Analysis & Roadmap (NAR) is a comprehensive evaluation of your network infrastructure, designed to provide strategic insights and actionable recommendations. By identifying vulnerabilities, performance bottlenecks, and outdated technologies, the NAR empowers businesses to optimize their network for peak efficiency and security.

Strategic Network Optimization at Your Fingertips

Katalyst's NAR offers a holistic approach to network assessment. Our experts collaborate with your team to analyze network architecture, device configurations, security posture, and overall performance. The result? A clear, prioritized roadmap that ensures your network is resilient, scalable, and secure.

Key Features of the NAR

Eliminate Hidden Risks

Identify security gaps and outdated technologies before they become costly problems.

Optimize Performance

Improve application performance and user experience with a streamlined network infrastructure.

Enhance Security Posture

Reduce the risk of cyber threats with a security-first assessment and best practice recommendations.

Strategic Budget Planning

Gain a clear roadmap for future investments, reducing unexpected costs and downtime.

Whether you need a second opinion on your network, lack in-house expertise, or face security and compliance challenges, the NAR delivers expert guidance. Our security-first approach mitigates risks before they become threats, while our roadmap prioritizes improvements to enhance performance and efficiency.

Here's a quick look at the extensive list of services we provide to our clients:

On-Demand Services

- SDWAN / Routing
- Switching
- Wireless
- Firewalls
- Network Access Control
- Segmentation
- Data Center Networking
- Secure Access Service Edge (SASE)
- Endpoint Security
- Email Security
- Identity & Identity Protection
- Hybrid Cloud
- Risk Management
- Security Awareness Training
- Backup & Data Protection
- Cloud Calling
- Collaboration
- Contact Center
- Endpoint Management
- Workload Security
- Security Analytics
- Security Analysis and Roadmap
- Network Analysis and Roadmap
- Cloud Analysis and Roadmap
- Vulnerability Assessment
- Automation / AI
- Email Migrations
- Incident Response

On-Going Services

- Managed Infrastructure Services
- Managed SIEM / SOC Services
- Managed Detection and Response
- Managed Compliance Services
- Managed Help Desk Services
- Managed Microsoft Services
- Managed Data Protection Services
- Private / Public Cloud Infrastructure
- Modern Workplace Solutions
- Advisory Services

60%

of businesses experience network performance issues that directly impact productivity and customer satisfaction

About Katalyst

For over 18 years, Katalyst has helped organizations create and execute their technology vision to go further, faster. From addressing complex challenges to embracing exciting opportunities, clients trust our team's experience and expertise across cybersecurity, modern infrastructure, and cloud computing.

Take your next step forward to achieve reliable IT operations and cost efficiency through our comprehensive suite of on demand and ongoing services. Trust we will deliver on the Katalyst Guarantee: if you are not 100% satisfied with our services, we will either make it right or refund you for the last 30 days of service.
