ENDPOINT DETECTION & RESPONSE

Protect your endpoints with managed EDR

Real-time detection, automated response, 24/7 oversight

KATALYST

Cyber threats evolve fast, with attacks like ransomware and zero-day exploits posing serious risks.

> *"It feels like we bought peace of mind. They worry about the things we need to worry about, identify the things we need to identify, and fix them before we need to think about it."*
>
> **Steven Yates, Chief Innovation Officer, MB HAYNES**

MANY ORGANIZATIONS STRUGGLE WITH

- **No real-time detection** — unable to respond before damage is done.
- **Alert fatigue and false positives** — overwhelming alerts with no clear path to resolution.
- **Limited visibility into endpoint activity** — gaps leave vulnerabilities exposed.
- **Resource constraints** — IT lacks time or expertise for endpoint security.

A COMPREHENSIVE, VENDOR-AGNOSTIC EDR SOLUTION

Real-time threat detection

AI and machine learning stop threats before they spread.

Automated incident response

Contains and neutralizes attacks instantly.

Comprehensive endpoint visibility

Monitors all activity and detects suspicious behavior.

Forensic investigations

Analyzes incidents and prevents future threats.

Managed Detection and Response

Through Foresite, with 24/7 expert monitoring.

Enhanced security posture

Proactively addresses vulnerabilities and strengthens defenses.

$4.88M

In 2024, the average cost of a data breach reached $4.88 million, marking a 10% increase over the previous year

The Katalyst Guarantee

If you are not 100% satisfied with our services, we will either make it right or refund you for the last 30 days of service.

Protect your business before the next attack strikes.
