

Compliance Services

HIPAA, SOC 2, PCI-DSS, and CMMC run as an ongoing operational discipline, not a once-a-year scramble. We build the controls into your Digital Backbone, document the evidence, and keep you audit-ready year round.

THE CHALLENGE

Audit season fire drills

Evidence is scattered across tools and inboxes, so every assessment turns into weeks of proving what you already do.

Controls that live on paper

Policies were written once and never enforced, leaving daylight between the documentation and how systems actually run.

Contracts and coverage at risk

Insurers and enterprise customers now require proof of controls. Gaps put renewals, contracts, and trust on the line.

43%

of U.S. small businesses have already been attacked

\$140K

average cost of an SMB breach, up 16% year over year

95%

of breaches involve human error

70%

lower breach risk with managed security controls

WHAT'S INCLUDED

Compliance built into daily operations

- **Gap assessment and roadmap.** You get your environment mapped against the frameworks that apply to you, with the work that closes real risk prioritized first.
- **Policy and control implementation.** Policies match how your business actually operates, then get enforced across identity, endpoints, email, and cloud.
- **Continuous monitoring and evidence.** We take accountability for the controls year round and capture documentation as you operate, not under deadline.
- **Audit and assessment support.** When the assessment comes, evidence arrives organized and our team stands with you through the process.

Delivered by U.S.-based engineers and advisors, aligned to **Assess, Transform, and Manage**.

FRAMEWORKS WE SUPPORT

HIPAA

SOC 2

PCI-DSS

CMMC

Cyber Insurance Requirements

THE OUTCOME

Controls you can prove

Documented, enforced, and monitored.

Faster audits

Evidence stays organized and current.

Insurable and contract-ready

Meet insurer and enterprise requirements with confidence.

Fewer gaps, less risk

Compliance and security reinforce each other.

HOW WE DELIVER IT

ASSESS

Gap Assessment

TRANSFORM

Controls & Policy

MANAGE

Monitor & Evidence

Make compliance a standing strength.

We will map your obligations, show you the gaps, and lay out the plan to stay audit-ready year round.
