

Incident Response

When an incident hits, preparation is everything. We help you plan, test, and respond, so recovery is measured in hours, not guesses.

THE CHALLENGE

No tested plan

A document may exist, but it has never been exercised under pressure.

Unclear roles

When something happens, no one is sure who does what, or who to call.

Slow, uncertain recovery

Without preparation, downtime and damage stretch far longer than they should.

Cybersecurity is a race, a marathon you have to keep running. Working with Katalyst is like having a team that is going to help us win this marathon.

IT DIRECTOR • NC-BASED FOOD MANUFACTURER

WHAT'S INCLUDED

Ready before it happens

- **Response planning.** Clear, tested playbooks for the incidents most likely to affect you.
- **Tabletop exercises.** Practice runs that surface gaps while the stakes are low.
- **Rapid response.** An experienced team ready to contain, investigate, and recover.
- **Post-incident review.** Lessons captured and controls strengthened so it does not recur.

Preparation, practice, and a team on call, aligned to **Assess, Transform, and Manage**.

WHAT WE PREPARE

Response Playbooks

Tabletop Exercises

Containment

Forensics & Investigation

Recovery

Post-Incident Review

HOW WE DELIVER IT

ASSESS

Readiness Review

TRANSFORM

Implement & Validate

MANAGE

Monitor & Respond

THE OUTCOME

Faster containment

Limit the spread and the damage quickly.

Clear roles

Everyone knows their part before the pressure hits.

Less downtime

Get back to business measured in hours.

Stronger next time

Every incident makes your defenses better.

Are you ready for an incident?

Let's pressure-test your plan before you ever have to use it.
