

Strategic network optimization at your fingertips

Gain Clarity, Security, and Performance

A reliable and secure network is crucial for business success. The Katalyst Network Analysis & Roadmap is a comprehensive evaluation of your network infrastructure, designed to provide strategic insights and actionable recommendations.

By identifying vulnerabilities, performance bottlenecks, and outdated technologies, the NAR helps you optimize for peak efficiency and security. Our security-first approach mitigates risks before they become threats, while the roadmap prioritizes improvements to performance and efficiency.

KEY FEATURES OF THE NAR

Eliminate Hidden Risks

Identify security gaps and outdated technologies before they become costly problems.

Optimize Performance

Improve application performance and user experience with a streamlined network infrastructure.

Enhance Security Posture

Reduce the risk of cyber threats with a security-first assessment and best practice recommendations.

Strategic Budget Planning

Gain a clear roadmap for future investments, reducing unexpected costs and downtime.

WHAT WE ANALYZE

Network Architecture —

how your network is designed, segmented, and routed.

Device Configurations —

switches, routers, and firewalls measured against best practice.

Security Posture —

where your defenses hold and where they leave exposure.

Overall Performance —

bottlenecks and capacity limits affecting users.

THE NAR IS BUILT FOR ORGANIZATIONS THAT

- Want a second opinion on their network from an independent team
- Face security and compliance requirements they must document
- Lack in-house networking expertise or capacity
- Need a prioritized plan to budget network investment against

60%

of businesses experience network performance issues that directly impact productivity and customer satisfaction

The Katalyst Guarantee
