

Find your cybersecurity blind spots

Empowering Your Business with Actionable Security Strategies

The Katalyst Security Analysis and Roadmap is a comprehensive security assessment designed to strengthen your cybersecurity posture. This in-depth evaluation provides a clear, strategic roadmap to identify vulnerabilities, mitigate risks, and optimize security investments.

By assessing your security architecture, our experts deliver actionable insights that let you make informed decisions in the face of evolving cyber threats.

“

Talking to the team at Katalyst gave me a ton of confidence that they had a very established security practice. They know what they're looking at. It's not just about running tools and giving readouts, they understand what's coming out of it and they're able to analyze and communicate about that very effectively.

IT Director, NC Based Food Manufacturer

KEY FEATURES OF THE SAR

Holistic Security Review

Covers firewall, network, endpoint, and application-level security.

Dark Web & Vulnerability Scans

Identify compromised credentials and security gaps.

Best Practice Validation

Ensure your organization adheres to industry-leading security frameworks.

Strategic Roadmap

A prioritized plan to improve your security defenses over time.

THE SAR IS BUILT FOR ORGANIZATIONS THAT

- Are new to a role and need an independent security evaluation
- Need to ensure compliance with industry standards
- Run a lean IT team without dedicated security resources
- Worry about cyber threats but have never had an assessment, or have recovered from an incident and want to prevent the next one

30%

In 2024, organizations experienced an average of 1,636 cyberattacks per week, marking a 30% increase compared to the previous year.

The Katalyst Guarantee

If you are not 100% satisfied with our services, we will either make it right or refund you for the last 30 days of service.
