

Identify, prioritize, and strengthen your security posture

Find the gaps before someone else does

Katalyst's Vulnerability Assessment is a proactive security service designed to identify weaknesses in your network before cybercriminals exploit them. Our experts use enterprise scanning tools and industry best practices to analyze your environment, detect vulnerabilities, and deliver a prioritized roadmap for remediation.

Whether you need to meet compliance requirements, protect sensitive data, or gain deeper visibility into your posture, Katalyst delivers the insights and expertise to strengthen your defenses.

YOUR CHALLENGES & HOW KATALYST HELPS

No visibility into network vulnerabilities

In-depth scans and reporting uncover hidden risks.

Uncertainty about compliance requirements

Our assessments ensure adherence to security frameworks and industry regulations.

No in-house scanning tools

Katalyst leverages enterprise-grade security tools to analyze your environment.

Fear an incident could be catastrophic

We deliver a clear, prioritized remediation plan to mitigate risks.

WHERE WE SCAN

External Websites — identify risks on your public-facing assets.

Internal Networks — uncover hidden vulnerabilities within your organization.

External Networks — assess the security posture of your internet-facing infrastructure.

Patching — evaluate the effectiveness of your current patch management strategy.

60%

of breaches involved vulnerabilities for which a patch was available but not applied

The Katalyst Guarantee

If you are not 100% satisfied with our services, we will either make it right or refund you for the last 30 days of service.

Proactively assess and strengthen your security posture.
